CHECKS RUN

CHECK	RESULT	DETAIL
Row count matches original	PASS	5 in, 5 out. No rows dropped.
Customer IDs untouched	PASS	Leading zeros kept on all 5 IDs.
Only agreed columns changed	PASS	name, email, state, signup_date.
Notes column untouched	PASS	Byte-for-byte identical.
Duplicates reported, not deleted	NOTE	Rows 2 and 4 match. Both kept for you to decide.
Formula-risk scan	FLAG	Row 5 notes could run as a spreadsheet formula.

NEEDS YOUR CALL

- Row 3: signup date 13/45/2026 isn't a real date. Left as is.
- Row 5: email is blank. We don't make one up.
- Row 5: notes start with a formula character. Tell us to neutralize it or leave it.

IN THE BOX

- `cleaned.csv`
- `change_log.csv (every cell, before and after)`
- `duplicates.csv`
- `issues.csv`
- `original.csv (untouched)`

WHAT HAPPENS NEXT

Reply with your call on the three flagged rows and we'll finish the file. One revision inside the agreed scope is included. If something looks off, say so and we'll fix it.
